INTRODUCED BY E. STAFMAN, J. REAVIS, B. EDWARDS, J. ISALY, P. STRAND, T. CROWE, J. SECKINGER, B. CLOSE, S. FYANT, J. WEBER, J. SOOKTIS, A. GRIFFITH, D. POWERS, M. CUNNINGHAM, S. ROSENZWEIG, E. DEMAROIS, D. JOY, C. FITZPATRICK, J. LYNCH

A BILL FOR AN ACT ENTITLED: "AN ACT LIMITING COLLECTION ACTIONS FOR A PATIENT'S DEBT OWED FOR HEALTH CARE SERVICES; REQUIRING A WAIT TIME AND NOTICE BEFORE ENGAGING IN AN EXTRAORDINARY COLLECTION ACTION; PROHIBITING CERTAIN COLLECTION ACTIONS; LIMITING COLLECTION ACTIONS WHEN A HEALTH INSURANCE DECISION IS APPEALED; PROVIDING DEFINITIONS; AMENDING SECTION 25-13-609, MCA; AND PROVIDING AN APPLICABILITY DATE."

WHEREAS, rising health care costs have made medical debt a significant problem for working Montanans, with one in three Americans burdened with medical debt; and

WHEREAS, increasing delay and denial of insurance claims, as well as increasing uncovered out-of-pocket costs, have left patients who thought they had adequate insurance coverage without coverage for particular circumstances, resulting in debt to cover the uninsured expenses; and

WHEREAS, medical debt incurred for necessary medical treatment is unlike other debt because it usually results from an emergency caused by an unexpected sickness or accident and the debtor has little choice but to incur the debt; and

WHEREAS, in 2022, 10% of Montanans had medical debt sent to collections, with the median debt in collections being \$713, forcing Montana families to choose between paying rent, buying groceries, or skipping medical care; and

WHEREAS, the federal Consumer Financial Protection Bureau recently found that longstanding policies in Indian Health Services have resulted in people in Native American majority communities, due to no fault of their own, being twice as likely to have medical debt in collections compared to the national average and in significantly higher amounts; and

WHEREAS, medical debt can push patients to make hard choices that often harm their physical and emotional health; and

WHEREAS, despite good faith efforts by some Montana health care providers to assist their patients with unforeseen debt through charity and other programs, many Montanans refrain from getting needed medical treatment because they cannot afford it, and reducing the burden of medical debt allows patients to focus on their health instead of worrying about losing their homes or cars or negatively affecting their well-being; and

WHEREFORE, the Legislature enacts the "Montana Medical Debt Patient Protection Act" to provide important protections for patients by eliminating wage garnishment to pay medical debt, creating a waiting period before medical bills can be sent to collections, providing patients with the opportunity to appeal insurance decisions before a bill goes to collections, and protecting bank accounts from being seized to pay medical debt.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF MONTANA:
