Description of fiscal impact

House Bill 525 creates a vapor product directory administered by the Attorney General (AG). The AG will publish the directory on their website starting January 1, 2026. Manufacturers would be required to annually "Certify" that their vapor products (containing nicotine) are in compliance with federal marketing authorization requirement and would also be required to remit a payment to the AG for every product. Penalties are provided for selling vapor products that are not included on the directory, which will also be administered by the AG. The Department of Revenue (DOR) will inform the AG of potential violations alongside four unannounced compliance checks that may be conducted in a year. The Department of Revenue will need to license vapor product wholesalers and sub-jobbers and update programs to facilitate their licensing, as well as update website and communication on licensing changes. The cost of these changes will be absorbed by DOR. Furthermore, the Department would require an additional FTE for auditing purposes. The Department of Justice will incur FTE and operating costs in the Gambling Control Division and Legal Services Division as well as litigation expenses.
